Newborn Feeding Log

Write down every feed, diaper and nap, one page for each day.

WHY IT HELPS

In the first weeks, days and nights run together. A simple log shows when your baby last fed, which side or bottle, and how many diapers so far. You do not have to remember, and anyone who takes over can see where things stand.

Bring it to your baby's checkups.

EACH DAY HAS FOUR SMALL STEPS

Feed	Write the time, then tick the side or bottle.
Change	Tick wet or dirty at each diaper change.
Sleep	Shade the hours your baby was asleep.
Hand over	Leave a note for the next person on shift.

Keep it where you feed. Leave the log and a pen by the chair or bed you use most, and write right after each feed.
